

Travel the world via radio!

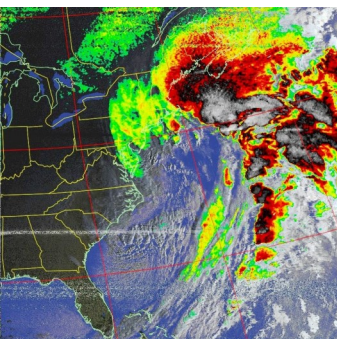

Help others in time of need!

Makers Welcome!

Outdoors, but not out of touch!

Direct from weather satellites!

Intro to Ham Radio Group is Forming Now!

Info Meeting: Feb. 21, 6:30 pm

Meeting at Hosanna! A Fellowship of Christians
29 Greenacre Rd, Lititz, PA 17543

If You Want To:

- Meet People from Around the World
- Serve Your Community
- Be Prepared for Emergencies
- Learn About & Build Electronics
- Communicate while Hiking, Camping or Boating
- Receive and Report Weather Info as It Happens

Try the Amateur Radio Hobby

Curious? Come to the Info Meeting to Learn More!

A 12-week instructor-led course is starting soon. We'll help you prepare to pass the FCC exam and get on the air as a Technician-class radio operator. There will be hands-on opportunities to get comfortable talking on the radio.

Everyone is welcome, bring a friend (or two) and get started together!

There will be practical discussions from local experts about:

- Buying the right equipment while not breaking the bank
- Radio clubs in our area to help you continue learning
- How to plan and install your own ham radio station at home
- Public service opportunities throughout Central PA

Ham radio is accessible for all ages. Kids age 8+ have passed the exam. (Parents, attend with your STEM-genius kids! Learn & have fun together!)

Course Starts: March 7, 6:30 pm

Approximate cost of course materials is \$20.
